

# H4200-H5000 CV surgery rounding policy

## Overall Aim

- Create less confusion for all parties involved including hospitalists, ICU providers, CV surgery providers, and the patient access center
- Streamline the transfer process to provide the best care for our patients

## Summary

- H42-50 hospitalist pages APP HH1 for sign outs at 9 AM
- APP HH1 places transfer order when transfer is confirmed
- H42-50 hospitalist either takes these patients onto his/her service or gives them to other H5000 rounders
- H42-50 hospitalist informs Patient Access Center of new patients and number
- For transfers happening later in the day, APP HH1 pages H42-50 hospitalist and gives sign outs

## Additional Information

- How to find AAP HH1 in amion:

- Hospitalist do not attend the morning CV round in ICU
- CV APP SHOULD be attending the interdisciplinary rounds for the floor with CC, SW, and charge nurse and communicate the plan from CV surgery and discharge planning
- Patient Access Center is not involved in distributing these patients to decrease confusion
- Policy remains the same regardless of weekdays vs weekends
